

DURALAM COMPACT LAMIANTE

PRODUCT INFORMATION GUIDE

"Innovative, tough, hygienic, and multipurpose panels."

The Duralam Compact Laminate panels are **innovative, tough, hygienic moisture and impact resistant** which makes them the perfect solution for all types of interior applications such as cubicle partitioning, wall linings, bench seating, vanities, lockers, cabinetry, table tops and general furniture.

Compact Laminate is made from numerous layers of Kraft paper saturated with thermosetting resins and bound by the combined action of heat and high pressure. A process called polymerisation fuses it together resulting in a solid core panel that is extremely strong and durable.
