The Altitude Range is the ideal solution for total privacy and robust construction. Through the use of 13mm compact laminate panels, specifically designed aluminium components and brushed stainless hardware - this is a complete full height floor-to-ceiling partitioning system built to last the test of time.

This system includes a range of flexible configuration and design options which can easily be manipulated for any specific full-height design requirements. Suitable for any restroom facilities where complete privacy is required. This system is constructed to provide a long-lasting and hard-wearing full height cubicle partitioning system.
